MECHANICAL ENGINEERING STUDENT

Profile

Motivated engineering student seeking a Mechanical Engineering Apprenticeship to develop practical skills, work with industrial equipment and learn from experienced engineers.

Details

DOB

17 February 2007

STATUS

Level 3 Engineering

FOCUS

Mechanical / CAD

AREA

Lancashire, UK

Technical Skills

CAD basics

Technical drawings

Hand tools

Measuring equipment

Workshop safety

Problem solving

Computer skills

Personal Statement

I am a motivated engineering student currently completing a Level 3 Engineering qualification at Runshaw College, having already achieved a Level 2 Engineering Operative qualification with a mechanical focus. I am keen to secure a Mechanical Engineering Apprenticeship where I can develop practical skills, work with real industrial equipment and learn from experienced engineers. I am reliable, safety-conscious and enjoy problem-solving, with experience using hand tools, measuring equipment and engineering drawings. Through college projects and football, I have developed strong teamwork, communication and time-management skills, which I am eager to apply in a professional engineering environment.

Education

2023 - Present

Runshaw College

Level 3 Engineering (In Progress)

Engineering Operative Apprenticeship - Mechanical Pathway (Level 2)

GCSEs

Mathematics Grade 4, English Language Grade 4, English Literature Grade 4, Combined Science Grades 4-3, Art Grade 3, History Grade 1, German Grade 1.

Key Learning Areas

- Health and safety in workshop environments
- Basic mechanical principles
- Practical engineering tasks and problem-solving
- Use of hand tools and measuring equipment
- Reading and understanding basic engineering drawings

CAD Portfolio Projects

- Adjustable Lamp CAD Design - assembly modelling and detailed drawings
- Adjustable Phone Stand - mechanism design and component modelling
- Piano Stool & Hinge Design - product design and hinge development
- Engineering Design Problems - concept sketches, redesign and optimisation

Mohammad Hashim Siddique

ENGINEERING CV - SKILLS, ATTRIBUTES AND INTERESTS

Technical Skills

- Confident using hand tools including drills, wrenches and screwdrivers
- Experience using vernier calipers and rulers for accurate measurements
- Able to read and follow basic engineering drawings
- Strong awareness of workshop health and safety procedures
- Basic fault-finding and practical problem-solving skills
- Understanding of basic mechanical principles

Communication & Employability

- Clear and confident when working with others, supporting effective collaboration in team settings.
- Teamwork and reliability developed through football and group engineering tasks.
- Punctual, committed and eager to learn new skills and techniques.
- Quick learner who adapts well to new tasks and environments.
- Good time management when balancing college work and personal commitments.
- Comfortable using computers for coursework and technical tasks, including basic CAD software.
- Polite, professional and respectful in workplace and customer-facing situations.

Core Attributes

- Reliable and safety-conscious
- Strong practical mindset
- Team player with good communication
- Motivated to learn from experienced engineers

Interests

Football

Technology

Reading

Self-improvement

Engineering design

Career Aim

I am excited about the opportunity to join a team as a Mechanical Engineering Apprentice. I am eager to apply my knowledge and skills while learning from experienced engineers. My enthusiasm for mechanical systems, strong work ethic and commitment to safety would help me become a valuable addition to an engineering workplace.
